### Modern IVF Lab

Region’s first modular lab for precise fertilization.

### High Patient Satisfaction

Thousands of happy families trust our expertise.

THE JOURNEY

# IVF Treatment Process — Step by Step

1. **Consultation**
2. **Diagnosis**
3. **Fertility Evaluation**
4. **Treatment Planning**
5. **Egg Retrieval**
6. **Fertilization**
7. **Embryo Transfer**
8. **Pregnancy Test**

FERTILITY SOLUTIONS

# Advanced Fertility Solutions We Offer

## IVF

In vitro fertilization — eggs fertilized in-lab, then transferred to the uterus.

## IUI

Intrauterine insemination places quality sperm directly in the uterus.

## ICSI

A single sperm is injected into the egg for male-factor infertility.

## Embryo Transfer

Healthy embryos are carefully placed for successful implantation.

## Egg Freezing

Cryopreservation protects fertility for your future family plans.

## Fertility Preservation

Protecting reproductive health before medical treatments.

# Pregnancy & Women's Healthcare

## Maternity Care

Complete prenatal to postnatal support at the Best Maternity Hospital in Palanpur — guiding every mother with comfort and expert medical care.

### Prenatal Care

Regular checkups & 3D/4D sonography monitoring.

### High-Risk Pregnancy Management

Specialized monitoring for complex pregnancies.

### Gynecology

Complete gynecological diagnosis & treatment.

### Laparoscopic Surgery

Minimally invasive 3D laparoscopic procedures.

PATIENT SUCCESS
